R125 FEATURES

Robot Front Face

The design of the front face resembles a robot mask to show the sense of future and technology. Headlights adopt LED dual lens design with near and far light integration, which have uniform brightness and strong penetration.

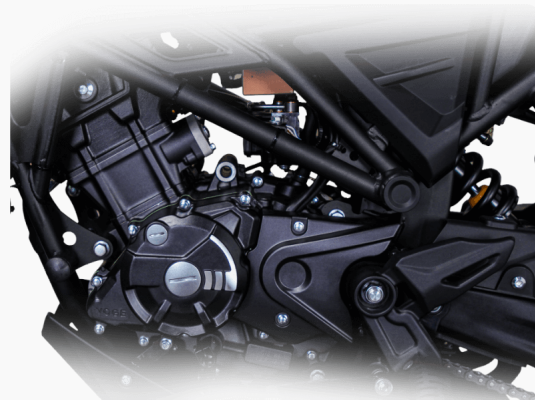

Thickened Taillight Design

Simple taillight design with thick wall luminous section, with obvious tridimensional, uniform light type and high identification.

Engine

124.8cc single cylinder/DOHC/4 valve/ Water-cooled engine, by reducing the intake and exhaust resistance of engine and reducing friction to squeeze out the strongest power as the same level.

Colored LED Instrument

LCD instrument panel, which has a clear visual effect and cool appearance.
